

New users register for the Whiskey Exchange. Upon loading the website, the user will start by entering his/her email address. If the email address is not located in the Whiskey Exchange database, then the user enters their email, first/last name, and password. Once a user is registered, the user only needs to enter his/her email and password to log into the Whiskey Exchange.

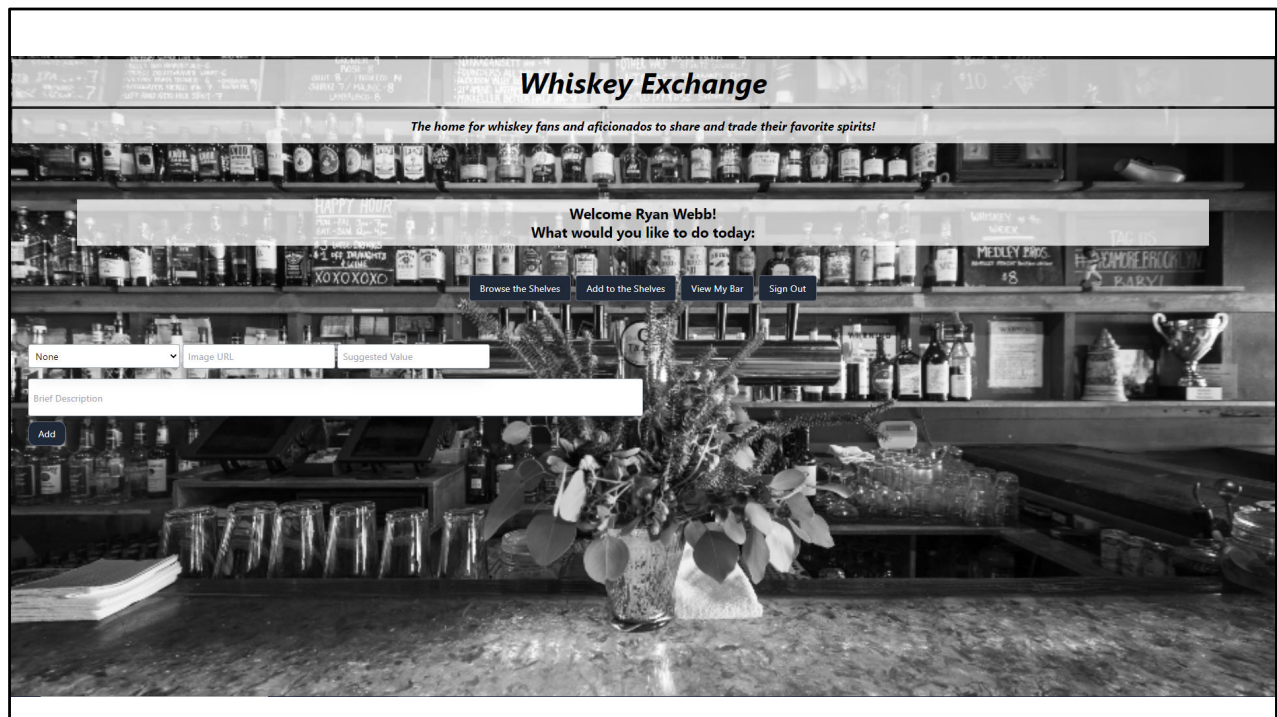

After logging in, the Whiskey Exchange will welcome the user and refer to the first and last name used to register for the Whiskey Exchange. From there, the user can:

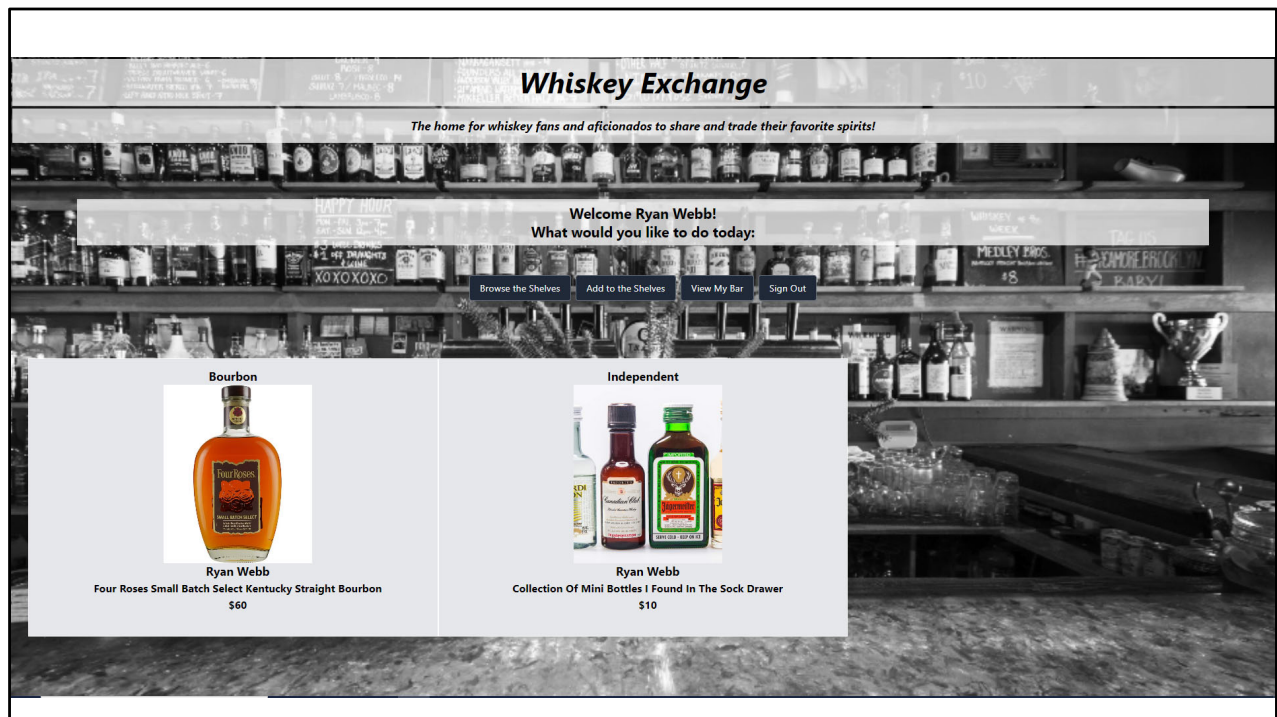

- Browse the Shelves – Users can scroll through options that have already been submitted to the site. If they are interested in the product, they can click the add to my bar button that submits that product to their profile.
- Add to Shelves - When a user clicks add to the shelves, he/she can post a product that submits to the browse page database. This allows other users to view the entry.
- View My Bar- When a user clicks his/her bar, he/she can see a list of brands they have previously added to their profile and a list of brands they have previously added to the bar via the interested button.
- Sign Out

When a user clicks browse the shelves, he/she can scroll through options that have already been submitted to the site. If they are interested in the product, they can click the add to my bar button that submits that product to their profile.

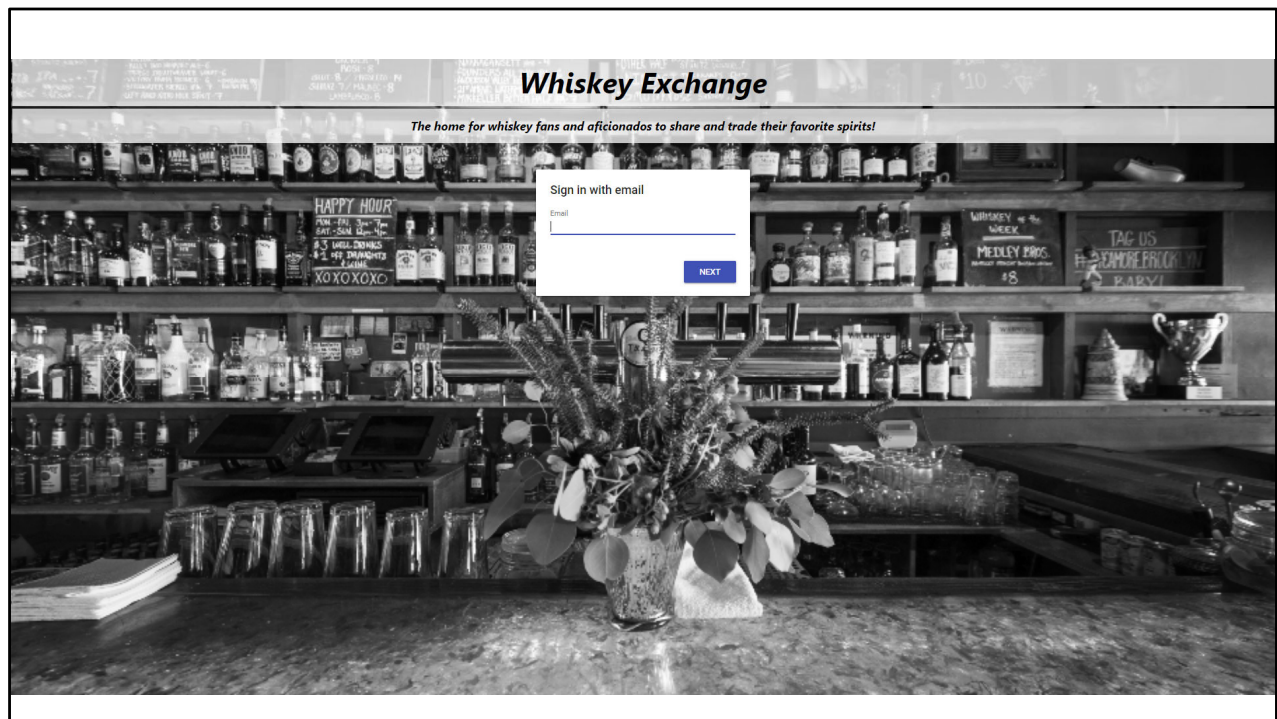

When a user clicks add to the shelves, he/she can post a product that submits to the browse page database.

When a user clicks his/her bar, he/she can see a list of brands they have previously added to their profile and a list of brands they have previously added to the bar via the interested button.

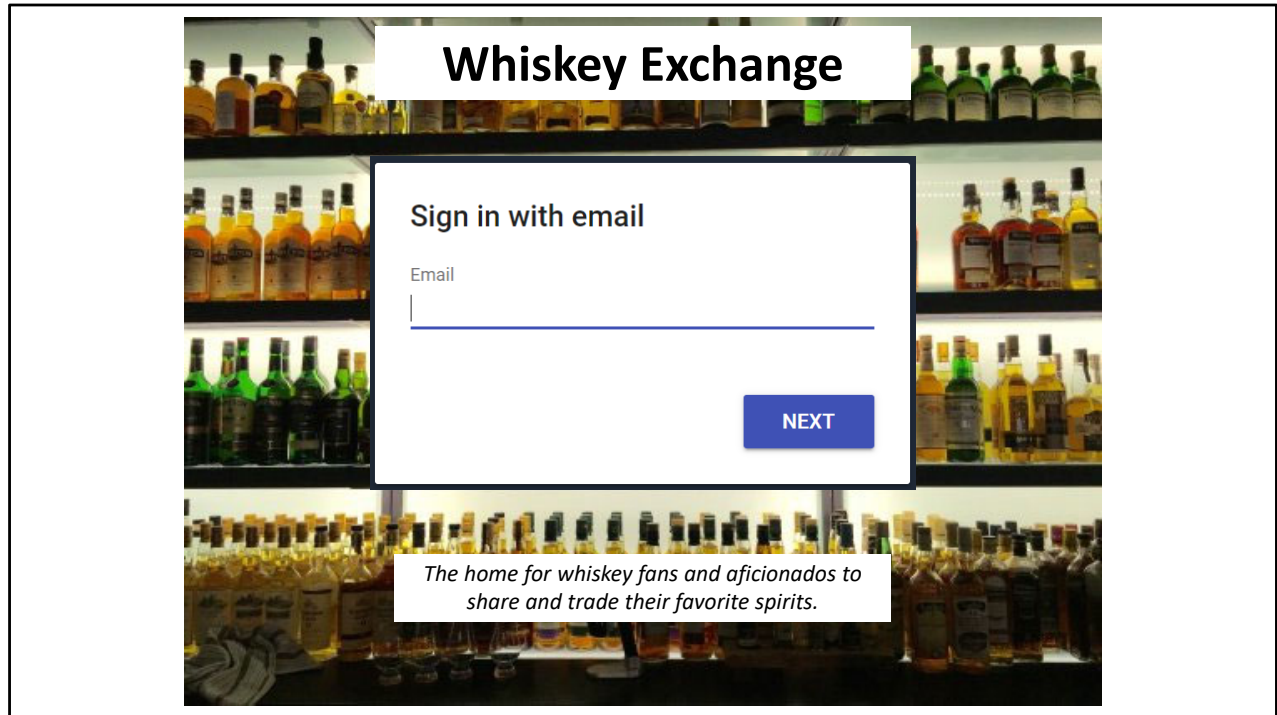

Once a user clicks Sign Out, he/she returns to the sign in page.

# Wire Frames and User Stories

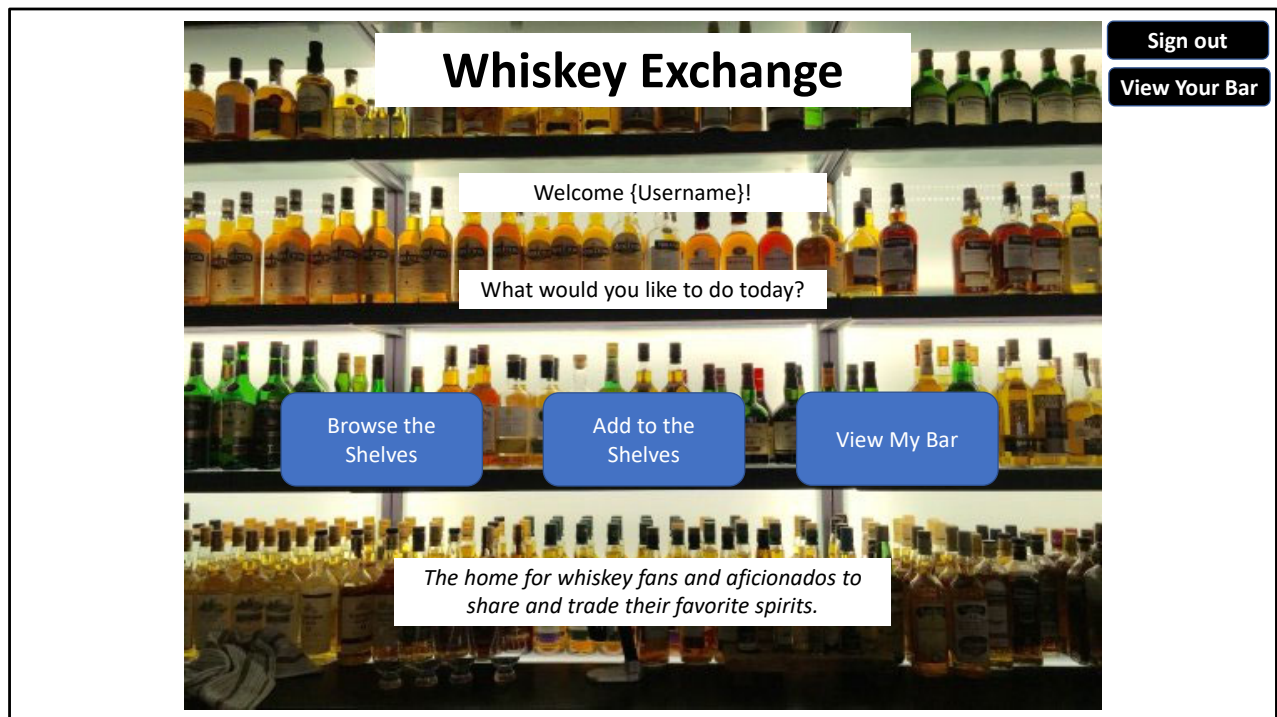

Initial: Due March 4, 2021

As a logged-out user, I want to be able to login.

As a logged-in user, I want to have 3 options- Browse other products, add a new product to the database, or view your profile

Now that user is logged in, I can click one of the three options depending on what I want to do (look at brands that other users have submitted, add a new brand to the database, or view their profile. Clicking each button takes the user to a new page
